After his death a box containing nearly \$1,500 in silver coin and a dozen blank book which represented the full amount silowed by law, and other valuables amounting to fully \$20,000 were found within reach of his hand. In his room were found packed clothing of every description, and as large variety of articles, evidently stolen property, as he had been known for several years to have been a "fence" or receiver of stolen property. In the midst of the rubbish, on a sincle cot beadstead, lay the body of Pike in a fithy condition. Pike was born in South Boston, in 1821, and came here twenty years ago to work at his trade as a masou. In March, 1885, he was convicted of receiving stolen property and fined \$55 and costs. He drew a check for the amount, and it was then loarned that he had several thousand dollars on deposit, It is supposed that his nearest relations are four cousins, Rev. Dr. Pike and Francis Lord, of this city, and two in New Hampshire. The deceased never married.

order, being rendered by the choicest talent that could be secured. Miss Kidwell was in good voice and her rendtition of the aria, "Bel Raggio," from "Semiramide" was greeted with a storm of applance and eucores. She also sang with great effect Dudley Buck's "When the Heart is Young."

Miss Kidwell is a daughter of the late George W. Kidwell, of Fairmont, and niece of the late Hon. Z. Kidwell, of the same place, who represented that district in Congress at one time. She possesses a rich mezzo-seprano voice, highly cultivated, and enjoys the distinction of being the leading soprano in Washington. Her younger eister, Miss Florence, is likewise talented and appeared in the concert. She sang a duet with her sister, which was one of the leading features of the evening. Fibraul, Bischoff and others were among the leading musical artists who participated in the notable event.

Owing to the death of Mrs. Harmon, Mrs. Cleveland's grandmother, the President and his wife were prevented from being present as was arranged.

The fire that caused the accident was in Nicoli's tailor store, at 145 and 147 Bowery. It gained such headway that the whole available force of firemen in the district were summoned to fight it. The flames spread to the low frame buildings Nos. 143 and 149 on either side of the burning building. It took the firemen fully one and a half hours to get the upper hand of the flames, but in that time the buildings were entirely destroyed and those abutting upon them in Christic street and Broome street, filled with water and badly damaged. The total loss was not less than \$100,000.

THE WILL OF THE MINORITY espected by the Bellatre Council-Other Bellatre News,

As already known, the result of the ection at Bellaire Monday was a clear najority of the voters of the town against rohibition. The election was ordered t the request of the temperance societies, and it was of course understood that the Council, though not obliged to do so, would abide by the will of the majority. Last night, however, the Council, on motion of Dr. Steere, ordered the City Solicitor to draw up an ordinance prohibiting the sale of liquor in the city. The pretext on which this is done is that white a majority of all the votes cast was against prohibition, the vote in a majority of the wards was in favor of prohibition, and the Councilmen from those wards—six out of ten—voted to order the ordinance circum up. and it was of course understood that the

REV. J. S. GILBERT, Allandale, N. J., HIS FIRST MESSAGE

IIIS HONOR, MAYOR SEABRIGHT.

Tells the City Council All About the Differcommendations for the City's Good. A Patrol Wagon Advocated, Etc.

Mayor C. W. Scabright presented his irst annual message to Council at last night's meeting of that body. The communication was read in both branches and ordered filed. It is as follows:

To the Council of the City of Wheeling: GENTLEMN:—In compliance with the city ordinance I do hereby submit my first annual message to your honorable body and I trust that you will give such consideration to the various suggestions as you may deem advisable.

The citizens may congratulate themselves that the fewer

may deem advisable.

The citizens may congratulate themselves that the finances of our city are in a very satisfactory condition. Such obligations as became due have been promptly paid, and our credit is first-class at home and abroad. Much of this satisfactory state of our finances is due to the admirable working of the Restraining ordinance, and I would advise Council to strictly adhere to the requirements of said ordinance.

nance.
In reviewing the various offices and departments of the city, I find the offices of City Clerk and City Receiver in the hands of Messrs. Bowers and Dunaway, respectively,—two_competent and faithful officials, who conduct the duties of their position in a manner that is highly satisfatory. POLICE DEPARTMENT.

POLICE DEPARTMENT.

To enforce the laws justly and equitably upon all classes of offenders is a most difficult thing to do among the diversified interests of our city. All laws should be strictly and promptly enforced. No corporation should receive more consideration in its disregard of the laws than the humblest member of the community. The peace and good order of our city gives evidence that so far, as we can the laws are being enforced. There is, however, much in this connection which is not duly considered by many juwlo insist upon the soforcement of all laws. This subject brings with it many difficulties; many of our laws define how violators are to be arrested; warrants of arrest cannot be issued tuless one or two clistons. many of our laws define how violators are to be arrested; warrants of arrest cannot be issued unless one or two citizens make oath as to certain infringements of the law before an arrest can be made, and then the matter is with the court. Before closing this subject I would say that the City Sergeant and his deputies are doing their duty to my entire satisfaction.

I would suggest that you aid the Police Department by accepting the report of the Committee on Police and the Police Board, wherein the annual appropriation is

Committee on Police Board, wherein the annual appropriation is asked, which includes a patrol wagon. This will materially enhance the efficiency of our police force. In case of an arrest in a distant part of the city, or in case of robbery, fire or accident, aid can be dispatched at very short notice to any part of the city.

the city.

This department has proven itself very efficient, and with some few additions to the appartus will be able to secure our city against any great loss from fire. Ohief Danning, however, claims that the Department would be much benefited if Main street was paved with fire brick from Twenty-fourth to Twelith streets, as the engines and reels from the South Side would then have a much shorter distance to travel, and could make faster time to a fire in the business portion of the city. There would and could make faster time to a fire in the husiness portion of the city. There would also be a great saving in the wear of horses and apparatus. By acting on Mr. Dunning's suggestion, you not only increase the efficiency of the Fire Department but you confer a been upon the people residing or doing business on Main street.

EDARD OF PUBLIC WORKS.

EDARD OF PIBLIC WORKS.

The good work done by the past Board is manifest to all, and we may therefore reasonably expect the same good results from the present Board. Only a small percentage of our streets are in such condition as is oundeaire they should be. I would therefore suggest that in making the annual appropriations you should give to the Board as large a sum as possible without crippling other departments. I would also ask that some action be taken in a matter that must be attended to at some time. I refer to the straightening of Caldwell's run. The progress and improvement of that part of the city, through which the said run takes its course, is entirely stopped until said improvement is made. The city would be remunerated by increased revenues in the provenient is made. The city would be remunerated by increased revenues in the shape of taxes and in having additional manufacturing sites to offer the enterpris-

ing public. TRUSTRES OF THE GAS WORKS

TRUSTRES OF THE GAS WORKS.

The Board has done good work. The works have been largely increased, and the revenues have been admirably handled. I would auggest to Council that extreme care be exercised in granting privileces which may materially effect the revenues of this valuable plant, especially as the revenues of the city may be largely reduced by a measure which will come before the people within the next two years.

CITY WATER BOARD.

CITY WATER BOARD.

If The west service of our city is well managed, yet much is to be desired as regards to giving the people pure water, and t service in all parts of the city.

I feel confident that the gentlemen composing said Board will take such measures as are possible to meet this public demand. STANDARD TIME.

I am pleased to notice that Council has taken steps toward adopting Eastern standard times. This should be promptly done, in order to keep in the line of progress with other cities and do away with the confusion which continually annoys our citizens and strangers by having three different times.

Respectfully submitted,

C. W. Seabnight, Mayor.
